DISEASE MARKERS
(*Dis. Markers*)

CONTENTS

VOLUME 10, ISSUE Nos. 1–4

VOLUME 10, ISSUE No. 1 *January–February 1992*

10th ANNIVERSARY ISSUE

REVIEW ARTICLE

Molecular Analysis of the Fragile X Syndrome *S. J. L. Knight, M. C. Hirst and K. E. Davies* 1

RESEARCH PAPERS

Allele-specific Methylation in the 5'-Regulatory Region of Class II DQ Beta Genes in the Human Major Histocompatibility Complex (MHC): Relationship to Autoimmune Disease Susceptibility *H. Toyoda, A. Redford and D. Magalong* 7

Primary Immunodeficiencies in the USSR: Update of a Nine-year study *L. Gomez and M. Yartsev* 19

Quality Improvement in the Modern Clinical Laboratory: The Regulatory and Accreditation Perspective *P. Bachner* 27

Autoantibodies in Systemic Lupus Erythematosus *D. K. McCurdy, M. Bick, R. A. Gatti and F. Naeim* 37

ANNOUNCEMENT OF FORTHCOMING MEETINGS OF ISPO 51

VOLUME 10, ISSUE No. 2 *March–April 1992*

REVIEW ARTICLES

Phenotypic Markers for Functional Lymphocyte Populations: a Critical Appraisal of Current Usage as Disease Markers and Future Prospects *H. Zola* 53

Lymphocyte Surface Phenotype in Common Variable Immunodeficiency *G. P. Spickett, N. Matamoros and J. Farrant* 67

RESEARCH PAPERS

Monoclonal Antibodies Against Partially Deglycosylated Colon Cancer Mucin That Recognize Tn Antigen *J. Huang, J. C. Byrd, B. Siddiki, M. Yuan, E. Lau and Y. S. Kim* 81

Allele Loss on Chromosome 11p is Associated with Poor Survival in Ovarian Cancer *D. M. Eccles, L. Gruber, M. Stewart, C. M. Steel and R. C. F. Leonard* 95

Translocation (8;12)(q13;q15) in a Pediatric Tumour *R. Vanni, S. Marras, R. Gambarella, R. Ambu and G. Faa* 101

IgD Serum Levels are Influenced by HLA-DR Phenotype *D. Lio, G. Candore, A. T. Colucci, M. A. Modica and C. Caruso* 105

Coefficients of Relationship by Isonymy Among Scottish Males with Early and Late Onset Cancers *S. M. Holloway and J. A. Sofaer* 109

VOLUME 10, ISSUE No. 3 *May–June 1992*

REVIEW ARTICLE

Circulating Low Molecular Weight IgM—a Disease Marker in Autoimmune, Infective, Immunodeficient and B Cell Lymphoproliferative Disorders *H. Xu and P. J. Roberts-Thomson* 115

RESEARCH PAPERS

Clinico-Immunogenetic Study on Egyptian Multicase Tuberculous Families *M. Hafez, A. El-Fiky, M. R. Bassiouny, S. A. El-Hafez, A. El-Morsy, A. Khaled, M. El-Ziny, Y. Al-Tonbary and A. Settein* 143

Lack of Association of the Alpha-1-Antitrypsin Piz Allele with Rheumatoid Arthritis or with its Extra Articular Complications *G. Steers, M. J. McMahon, D. M. Grennan and M. C. Hillarby* 151

Plasma Fibrinogen Levels and Fibrinogen Genotype in Non-Insulin Dependent Diabetics *C. Snowden, R. Houlston, M. F. Laker, P. Kesteven, K. G. M. M. Alberti and S. E. Humphries* 159

VOLUME 10, ISSUE No. 4 *July–August 1992*

Foreword *M. Steel* 169

Ethical Considerations in the Social Context of Huntington Disease *D. Turner* . 171

Seminar on Ethical Issues Arising from Molecular Studies in Human Genetic Disease: Held Under the Auspices of the UK Cancer Family Study Group in Manchester—21 May 1992 *Chairman: M. Bobrow. Contributors: P. Harper, J. Harris, G. Evans and A. Hunt* 185

Ethical Issues in Genetic Testing for Huntington's Disease: Lessons for the Study of Familial Cancers *P. Harper* 189

The Use of Information (Autonomy and Confidentiality) *J. Harris* 195

Ethical Issues: The Geneticist's Viewpoint *G. Evans* 199

The Patient's Viewpoint *A. Hunt* 205

Panel Discussion *Chairman: M. Bobrow. Panel Members: P. Harper, J. Harris, G. Evans and A. Hunt* 211
